# Fees for Issuers

**Iberclear**

May 2025

Please note that only the Spanish version of this Circular produces legal effect. Any translation is provided for commercial purposes only.

## Regulation 1. General.

1. The fees set out herein do not include VAT.
2. All fees are invoiced on a monthly basis, unless expressly stipulated otherwise.
3. Iberclear reserves the right to request the provision of funds before providing certain services.
4. Iberclear will require the issuer or, where applicable, the participant, to set up a direct debit for the invoices of the issuers. Those issuers that are also participants in Iberclear will pay their invoices by debiting an RTGS account.
5. Fees incurred for the provision of services in connection with financial transactions involving an agent entity will be paid by the agent entity designated for the transaction.
6. Iberclear reserves the right to discontinue the provision of certain services, in which there is no risk of causing harm to investors or third parties, in the event of default by the issuer or the participant.
7. In the case where securities issues are registered at the request of a participant the related services provided (annual fee, inclusions, exclusions, communications ....) shall be invoiced directly to the participant.

## Regulation 2. Annual fee.

1. Every issuer that designates Iberclear as the entity responsible for its book-entry register will be charged an annual fee of 600€.
2. The fee set down in this Regulation will be charged in January. If the issuer registers during the course of the year, the fee will be charged proportionally.

Item	Fee
Participation fee	600€.

## Regulation 3. Register inclusions and exclusions.

1. As a general rule, all equity securities included in the Register for any reason will be charged a fee of 0.4 basis points of the cash value of the inclusion, subject to a minimum of 600€ and a maximum of 50,000€ per issue.

Item	Fee
Equity inclusion	0.4BP

For the purposes of determining the basis on which this fee will be calculated, the total cash value of the issue will be considered to be the most representative value of the security being registered.

By way of example, the following are some possible ways of determining the total cash value of the issue: that calculated at the unit price at which a public offering is made, when the book entry in the Register is the result of the forthcoming admission to trading of the security in an official secondary market or multilateral trading system; that calculated at the unit price of the disbursement for the public offer for subscription of the security being registered; that calculated at the unit countervalue, including issue premiums, in the case of capital increases for a security that is already registered; the nominal value of maximum by-law mandated capital in the case of initial registration of open-ended collective investment schemes; etc.

In the absence of a precise reference price to provide a basis for calculating the total cash value of the issue being registered, this is calculated on the basis of its weighted average price in its first day of trading on an official secondary market or multilateral trading system.

In cases where there are differences between the time of book entry and determining the price to be used as the basis for calculating cash value, IBERCLEAR may divide the invoicing of the fee into two parts: an initial part at the time of the registration, applying the fee to the nominal value registered; and a second part as soon as the reference price is determined, complementing the interim amount billed in the initial bill so that the fee is effectively applied to the corresponding cash value.

2. The inclusions of fixed income securities in the Register will have a cumulative fee applied to them according to the number of issues carried out during the year. In other words, if the number of issues falls within the first tranche, the amount corresponding to that tranche applies for each issue, when the number of issues exceeds the first tranche the amount of the next tranche will be charged, and so on.

Tranches	Fee
1 - 5	1,500€
6 - 10	1,000€
11 - 25	750€
26-100	500€
101 and above	300€

3. All total and partial inclusions and exclusions for the book-entry registration of issues of warrants, certificates and similar securities, increases of warrant issues and the registration
