

ROADMAP

NEW BME SERVICES

iberclear

BME, as a reference infrastructure, offers a new package of services aimed at optimising the management of our clients' cash. It is a series of alternatives for financing securities, supported by an international custody solution that will help achieve cost efficiency

Cross-Border Services

Settlement and custody services for foreign markets similar to IBERCLEAR's current domestic market settlement and custody services to facilitate operations for participants.

Repos Project

Expansion of trade clearing in BME CLEARING through the connection of the BrokerTec platform and other platforms.

Bilateral Management.

Electronic management Pledge Services

IBERCLEAR expands its electronic management pledge service by allowing non-IBERCLEAR participants ("*buy-side*") to benefit from the service for the management of bilateral collateral.

SFTR

REGIS-TR, BME trade repository for Securities Finance Transaction Regulation.
